RECOMMENDATIONS

I had the pleasure of having Krista report to me as part of our marketing team at MK Marketing. She was a valuable team member and contributor. What made her truly outstanding went beyond the usual expectations. She is competent and highly proficient in the skill areas expected of an in-house graphic designer. However, how she approaches what she does not know is what sets her apart. As we added new technologies and new capabilities, Krista quickly took to the task of mastering them and then integrated them seamlessly into our workflow. The highest compliment I can give her is to say that I would welcome her on any future team I am leading in a heartbeat.

I have had the pleasure of working with Krista for over 10 years, and I am continually impressed by her hard work, talented eye for design, attention to detail and her ability to decipher a client request and deliver a polished Graphics/Marketing product. I have always been most impressed by her passion - a passion for her work, a passion to deliver what a client needs, when they need it and a passion to do it the right way. The work Krista has done was a key factor in many of our successful customer presentations and RFPs throughout the years.

EDUCATION

William Paterson University

Wayne, NJ

B.S. Computer Science

Center for the Media Arts

New York, NY

Graphic Design Certificate

Awards

- 2016 Certificate of Appreciation
- 2015 Volunteer of the Year
- 2014 Rookie Volunteer of the Year

I had the distinct pleasure of working with Krista for over 6 years at IDL Techni Edge. Krista is a highly talented graphic designer with a litany of complementary skills (e.g. photography, copywriting, and web design) that help make her an invaluable part of any organization's marketing team. She loves her craft, is detail oriented and is great at communicating her ideas while embracing the needs of the business. At IDL Techni Edge we turned to her again and again for her excellent creative design work and her quick turnaround on projects. Krista always delivered work on time and ahead of schedule. She led the redesign of our Techni Edge product catalog and handled not only the graphic design of the catalog, but she also shot most of the product photos and completed much of the copy-writing as well! Simply a super-human effort that she made look easy. I highly recommend Krista. If you want consistently excellent results delivered on-time, without any drama, and within budget Krista is the graphic designer for your organization.
